EC decision

January 2016
Contract for
evaluation on
monitoring
system

Capacity building

Monitoring system

1) Key documents review

- Examination of programme intervention logic
- Illustration of environmental effects

2) Interviews with Member States and ETF meetings

- Define an indicative list of benefit categories
- Definition of a list of impact evaluation questions

3) Analysis of project application forms

- Draft categorisation of benefits
- Final list of benefits and potential
- Measurements in line with project AFs and reports

Benefit/result mapping

- Networking
- Knowledge
- Socio-economics
- Policy and government
- Environmental

HOW IT WAS APPLIED TO THE LIFE CYCLE OF THE PROGRAMME?

Programming phase

Before project submission

PROJECT GENERATION

Project applicants
are guided in the formulation of measurable project results

Monitoring and evaluation phase

During project implementation

PROJECT REPORT

Project beneficiaries
report the actual achievement of project results over time by using the measurements they proposed

During and after project implementation

EVALUATION

Evaluators
will collect and analyze the theory of change and detail specific aspects for a sample of projects

LESSONS LEARNT

- Programming capacity (SEUPB)
- Participative approach (2 Seas)
- Role of the evaluator
- Timing matters!

WHAT NEXT?

- Local focus
- Projects' self-assessment + external evaluation
- Strong methodological efforts and the activation of further actors
